Career Objective

I am very energetic and well experienced in the field of Software development, and my objective is clear that is to be an active part of the success of the organization by ensuring that it will meet its business objectives with my broad range of experience and knowledge.

Skills

- Thorough knowledge in Angular
- Thorough knowledge in Firebase Realtime DB, Cloude Functions, FCM
- Thorough knowledge in Cordova
- Thorough knowledge in Yii, Laravel (MVC), Sencha EXT js frameworks and SASS, LESS, Bootstrap, JQuery, Google Material Design.
- Fair knowledge in C# (MVC)
- Fair knowledge in Android
- Thorough knowledge in RESTfull APIs
- Thorough knowledge of Git – Bitbucket(Gitflow Workflow), JIRA, Agile
- Thorough knowledge in database management. (MySQL)
- Manage time lines and resources with the scope of work.
- Ability to analyse a problem and arrive at a logical solution.
- Thorough knowledge in production life cycle.
- Thorough knowledge in system analysing and designing.
- Fair knowledge in Online Payment Integration.
- Fair knowledge in Project Management

Experience (6+ years)

Payment services (Pvt) Ltd Senior Software Engineer	Feb 2018 — Present
Crowderia (Pvt) Ltd Senior Software Engineer	Jan 2016 — Jan 2018
Crowderia (Pvt) Ltd Software Engineer	May 2015 — Dec 2016
Kraken Media Private Limited Software Engineer	Jan 2012 — Apr 2015

Projects (recent)

Project: UPay

Sub Projects: UPOS, Platform Manager, App Manager, USell

Domain: Payment/Banking/Lifestyle

UPay platform is a Payment Platform which provides a quick and secure channel to make payments from credit cards, debit cards and bank account online for UPay merchants via consumer's smartphone.

(UPay merchants - Biller aggregators e.g: MCash service provides multiple utility services - Individual/Third-party merchants services e.g: ikman.lk, echannelling - UPOS merchants;e.g merchants who only use UPOS)

Environment: Angular 5, Cordova, JavaScript, Firebases Realtime DB, Cloude Functions, FCM, JustPay SDK Bitbucket, JIRA, Visual Studio Code

Project: Payd (Worked in Sweden with clients)

Domain: Banking

Payd is a solution to some major banks and a one of leading financial solution provider in Sweden. Working as the Senior Angular developer for the project by providing a enormous architecture using latest technologies provided by Angular Framework and some other related technologies. Has experienced competitive knowledge by competing with bank applications in Swedish software market

Environment: Angular 4, Angular CLI, JavaScript, Google Material Design, GitLab, JIRA, SignalR, Visual Studio Code

Project: Grade5

Domain: Education

Grade5 is the next generation innovative study tool combined with great fun for children to excel in their Grade 5 scholarship examination of Sri Lanka. Features - Grade5 provides a unique set of questions to improve the skills in diversified sections of the existing exam model. - Parents have the ability to view detailed reports of their children to identify the areas where they are weak and pay more attention to improve those areas. - Furthermore, exam tips and special guidance advice is available from qualified teachers who have many years of experience in teaching Grade 5 students.

Environment: Android, Retrofit, Angular 4, Angular CLI, Node, GitLab, CrowdPm, Android Studio, Visual Studio Code

Project: Trivsel Fonster

Domain: Customized Window

A web application for order customized windows and its handle very complex pricing model and it's depend on window configurations (Product model, Dimensions, Frame Colour, Glass Type, Bars,Center Post, Handle, Hang)

Environment: C# (MVC) with Fluent api, Angular 2, Angular CLI, TFS, Visual Studio

Project: MSIS

Domain: Accounting & Real Estate

An application for facilitating financial and marketing processes in the Real Estate market. The main focus is to handle ownership transferring facility via online. The system was developed targeting Azure services. The project was executed based on agile / scrum software development methodology and it was TDD. TFS was used for source control, PM , building the project, deployment, etc.

Environment: AngularJS , Gulp, Bower, LESS, RavenDb, TFS, Visual Studio

Project: Catchingo

Domain: Fashion deal publishing application

Catchingo provides user-friendly functionality to end the products you are looking for at the most convenient location and at the best price. The project team was 3 members. Web application was developed with Laravel with RESTfull API with MySQL database & Mobile Application was developed with PhoneGap, ionic Framework. Project was executed based on agile / scrum software development methodology and it was TDD. GitLab, Agilefant, bugzilla was used for source control, PM , building the project, deployment, etc.

Environment: Ionic, PhoneGap, Laravel 5, RESTfull API , MySQL, GitLab, JIRA

Project: Design Thinking App

Domain: Visualize and analyse research data

A web platform that allows project teams in Singapore Polytechnic to document, visualize and analyse research data in the most effective way for collaboration and sharing between team members. A knowledge source, an archive of previously completed case studies and a guided experience for first timers taking the design thinking approach.

Environment: Yii, MySql, JavaScript, JQuery, HTML5 canvas, Ajax, JSON, Bootstrap, Bitbucket(Git), NetBeans,

Project: Business Test Methods

Domain: Education, Examination

Business Test Methods creates evaluation procedures to enable business education programs select candidates with the optimal fit for the rigors of their program. Products include tests to evaluate academic aptitude, leadership experience, personality modelling and admission interview tools.

Environment: Yii, PayPal, MySql, Bitbucket(Git), JavaScript, JQuery, Ajax, JSON, Bootstrap, NetBeans,

Education

Bachelor in Physical Science University of Ruhuna	2008 — 2011
--	-------------

- Computer Science
- Pure Mathematics
- Chemistry

SLIIT Certification Course(CCNA Exploration 1, 2, 3, 4) Cisco Networking Academy, Sri Lanka.	2010 — 2011
---	-------------

G.C.E O/L & A/L Mahanama College, Colombo 03	1992 — 2006
---	-------------

- Combined Mathematics C
- Physics C
- Chemistry C

Interests

Table- tennis, Tv-series, Outing
